

2012

Unama'ki Institute of Natural Resources is Cape Breton's
Mi'kmaq voice on natural resources and the environment.

Forestry, marine science research,
species management, traditional Mi'kmaq knowledge,
water quality monitoring, and environmental partnerships
are among our responsibilities.

Natural Resources

Netukulimk

At the heart of everything we do at UINR is Netukulimk.

Netukulimk is the use of the natural bounty provided by the Creator for the self-support and well-being of the individual and community.

Netukulimk is achieving adequate standards of community nutrition and economic well-being without jeopardizing the integrity, diversity, or productivity of our environment.

As Mi'kmaq we have an inherent right to access and use our resources and a responsibility to use them in a sustainable way. The Mi'kmaq way of resource management includes a spiritual element that ties together people, plants, animals, and the environment. UINR's strength is in our ability to combine scientific research with Mi'kmaq knowledge.
